Integration: Creating a Client-Centred Health Care System

Steven Lewis
(President, Access Consulting)

Friday, October 10, 2008
12 noon - 1 pm (E.S.T)

In the Northwest, we have an opportunity to improve how the health system works for the people we serve through integration.

Join Steven Lewis, health policy and research consultant, for a discussion on client-centred integration, and what organizations and the system can do to achieve it.

The presentation will be practical rather than theoretical, illustrating how integration helps solve problems in areas such as:

- Alternate Level of Care (ALC)
- Health Human Resources
- Primary Care Reform and Chronic Disease Prevention and Management
