

## North West LHIN Chief Executive Officer (CEO)

"Healthier people, a strong health system, - our future".

If you have a passionate appreciation for life in the north, you will embrace the scope and ambition of a new strategic plan for the North West LHIN. With the largest geography and lowest population of Ontario's LHINs, this is an organization with unique access and cost issues. Serving the population of the northwest with vision, creativity and compassion will become your mission and your quest in this Chief Executive role. Based in Thunder Bay, you will work with a strong and engaged Board of Directors and a great LHIN team. Your success will depend on working productively with the decision makers who lead the hospitals, aboriginal leaders, community support organizations, health centres, community care access centres, long term care homes, mental health and addiction agencies that care for the dispersed and diverse population of Ontario's Northwest.

In order to improve health outcomes and support a healthier population, the North West LHIN is committed to integrating and re-designing the health system. As C.E.O., you will rally your people around a spirit of engagement and collaboration. Make learning, innovation and research your organizational priorities. Promote a system-wide culture of accountability for access, safety, quality of care and evidence-based innovation. Lead in system planning, community engagement, integration/co-ordination, service provider accountability, allocation of funding and capital recommendations. Infuse your team with a sense of mission to develop an innovative, sustainable and efficient health system in service to the health and wellness of the people of the North West LHIN.

With a sound knowledge of the health care system, you are recognized as a bridge-builder, a change manager and a visionary. With a successful leadership track record, you have earned a reputation as an inspirational administrator who brings out the best in your people.
