

April 2009

The North West Local Health Integration Network (LHIN) **Board of Directors** invites you to join your fellow Board colleagues for a session to support system transformation in our region.

The Spirit of Possibility: Governing and Leading Together

Within Local Health Integration Networks and our health service provider organizations, there is an abundance of ideas, passion and creative solutions to improve the health of our citizens and our communities.

As members of the governing bodies of our respective organizations we must reach out, we must get curious, and we must explore. We need to better understand relationships, experiences and our governing together in the LHIN environment. We believe it is possible to shift our collective attention towards what more we can do, individually and collectively, with the resources within our own LHIN community.

In the spirit of possibility, we are inviting two (2) members of your Board, along with your CEO/Executive Director, to join us at 1 session of your choice in what is intended to be a relaxed and enlightening conversation.

Please RSVP by the date noted for the session you wish to attend to Beverley McClain: Beverley.McClain@lhins.on.ca; fax: (807) 684-9533
